It is from here that Alexander the Great launched the great military and civilizing expedition to the East. Dion was, where the Macedonians had built sanctuaries for Olympian Zeus, Dionysus, Asclepius, Orpheas and Pierides Muses. There are also the ancient towns of Amphipolis, Filippi and Stagira – with the latter being the birthplace of Aristotle, founder of Philosophical Thinking and teacher of Alexander the Great.

PRIVATELY OWNED MOTOR VEHICLE

1. Start of the stay

a. General Instructions:

(1) Personnel from Non EU countries

When a vehicle enters or is shipped into the Hellenic Territory from a non EU country, it is required to clear customs at the point of entry. A temporary customs certificate (Free Passage Card) should be issued at this point to allow continued driving within Greece until the vehicle can be cleared through the Thessaloniki A' Customs Office.

(2) Personnel from EU countries

Those vehicles that enter or are shipped into the Hellenic Territory from an EU country are required to clear at the Thessaloniki A' Customs Office as soon as possible.

b. Immunities – Taxation and Duties

As referred in the par. 15-2 b. of Law 2826/2000 and the par. 3.b. of ANNEX of Law 2826/2000, non - Greek personnel assigned to NRDC-GR HQ may own at any time (import or purchase on the Greek domestic market) one Private Owned Motor Vehicle (POMV), if unaccompanied, or two POMVs, if accompanied by dependents, free of duties and taxes. In addition to that they can import or/and purchase one motorbike, one caravan/trailer and one pleasure boat. They can also, either keep their national plates or obtain special registration plates from NRDC - GR HQ. These POMVs may be replaced by any of the above methods, free of duties and taxes, as desired by the individual owner, so as the vehicle being replaced has been:

(1) Owned for at least one year and sold to another member of the Headquarters or any other privileged person, who is authorized for duty free privileges.

(2) Owned for at least one year and sold with Greek taxes and duties paid.

(3) Certified by the proper authorities as destroyed, stolen or abandoned at Thessaloniki A' customs with no requirements.

c. Greek Plates:

If the owner decides to replace his / her national plates with Greek ones, she/he has to: Optionally (but recommended), authorize a broker via the Greek ICIS net (Customs Electronic Transactions), in order to escape Customs' Service bureaucracy. Otherwise, she/he goes directly to the employee of Thessaloniki A' Customs. Then, P & I Office will provide you all the necessary

documents in order to confirm your status and use your privilege to import your vehicle without Custom Clearance cost. The necessary documents are:

(1) Duty - free Control Restrictions Acknowledgment Form (Annex H) - P & I.

(2) Duty - free Privilege Status Certificate (Annex G) - P & I.

After taking the Custom Clearance, the owner has to bring it to P&I in order to have the temporary vehicle registration unofficially.

After taking the unofficial temporary vehicle registration, the owner has to make a vehicle insurance for his vehicle, with the number of its new Greek plates.

Then, he has to deliver the Custom Clearance and the vehicles insurance to P & I Office which will provide him with the plates and the Vehicle Registration.

d. National Plates:

If the owner decides to keep his / her national plates he / she is obliged to deliver to the Customs Service all the necessary documents in order to prove the eligibility of tax free import and to request for a free passage card from Thessaloniki's A' Custom Office. The card is valid throughout the members service in Greece and has to be returned to the relevant Custom office, when the member leaves the country for good.

It is recommended from the established practice that about the end of your stay and before your departure to get a certification through P & I Office and to give it to Thessaloniki's A' Custom Office because the relevant Custom Office of the country's exit point is not directly connected with them and you might have problems with the deletion of your plates from customs system.

The necessary documents are:

(1) Duty - free Control Restrictions Acknowledgment Form - P & I.

(2) Duty - free Privilege Status Certificate - P & I.

(3) Application Form For the Thessaloniki Custom House - P & I.

(4) Passport, NATO ID, Driving license, vehicle registration, vehicle insurance, certification of TID number.

All these documents need to be stamped for their authenticity by the GRC – NSE and then you go directly to Thessaloniki A' customs without an appointment and without paying any fees.

d. Annual Road Taxes

Allied personnel of NRDC - GR HQ are exempted from annual road taxes on one POMV (car or bike). Members who register second POMV or bike at NRDC - GR HQ must pay to Thessaloniki A' Customs Office the annual road taxes, according to the engine capacity if the POMV is first registered before 31/10/2010 or according to the pollutant emission if it is registered after 01/11/2010.

The Financial year for Greece starts on 01 / 01 of each year and ends on 31 / 12.

Those who choose to keep their National vehicle plates will be charged according to the duration of being in Greece.

This information is applicable at the moment of the edition of the Newcomers Package and keep in mind that these conditions may change year by year.

In addition, the payment of the annual road taxes is a personal obligation and the P & I Office does not get involved in financial matters between Thessaloniki A' customs and the obligators.

e. Technical Inspection

According to the Law 2826/2000 the imported cars need to pass through technical inspection in order for a new vehicle registration to be provided by P & I Office. You can find a list of Technical Control Centres in the last part of this guide.

f. Buying a car in Greece

- (2) Duty - free Privilege Status Certificate - P & I.
- (3) A statement to assign the importation to the custom brokers in Athens customs office - P & I.
- (4) An application to the Athens custom office for the importation of the new car - P & I.
- (5) An application to PAEGAE (General Warehouses) in Athens - P & I. More information: www.paegae.gr
- (6) A solemn declaration that it is your 1st car purchase in Greece (if it is), otherwise if it is your 2nd car purchase in Greece, will also be needed a solemn declaration from the dependent.
- (7) Photocopies (2) of NATO ID - Driving License - Passport (if it is the 2nd car purchase then the dependent's documents photocopies are also necessary).

All these documents need to be stamped for their authenticity by the GRC – NSE.

g. Selling your car during your stay in Greece

If the allied personnel decides to sell his/her POMV - either bought from his homeland or bought in Greece and was in his/her possession for at least 1 year, in order to retain the tax free privilege he/she has the following options:

- (1) Selling to a Greek citizen, after all the Greek taxes are paid.
- (2) Selling to an allied member - staff or a person who has the same tax free privilege (the allied buyer is deprived of the ability to hold another tax free car).

h. Miscellaneous

When a POMV is exiting or being shipped out of Greece due to completion of the stay, or it is permanently transferred back to the home country during the period of service, the corresponding Free Passage Card must be turned into the Customs Office at the exit point. In the case of permanent transfer back to the home country, it is highly recommended, but not mandatory, for the beneficiary to retain a copy of the validated Free Passage Card as proof that the vehicle was permanently exported.

When a vehicle is bought from another member of the HQ's eligible

to tax - free privileges, the parties concerned must present to the Thessaloniki A' Customs Office the selling contract along with the vehicles documents. Then the Free Passage Card of the vendor will be voided (sealed) and a new one will be issued to the purchaser of the vehicle.

For more details: Post Regulation 10-1 (Motor Vehicle Registration).

2. End of the stay

a. Greek Plates

If the owner of a vehicle with Greek National plates decides to keep the plates for the period of the procedure of having home national plates, he/she should complete a Solemn Declaration provided by P & I Office that he/she undertakes the obligation to turn back the Greek National plates and the temporary vehicle registration until 30 days from the departure.

This Solemn Declaration allows the allied personnel to keep the Greek National plates and the temporary vehicle registration for 30 days after his/her departure in order the previous member of NRDC - GR HQ to complete the legally procedures of having plates of their own country. After that she/he is obliged to send the Greek National plates back to P & I Office with his/her own responsibility.

The owner should also pass through the Thessaloniki A' Customs in order to take a certification that has no debts concerning the Annual Road taxes or any other issues before his/her departure and give a copy to P & I Office.

The Fuel booklet of the vehicle is being returned back to P & I Office before the members departure.

b. National Plates:

The owner of a vehicle with National plates should also pass through the Thessaloniki A' Customs in order to take a certification that has no debts concerning the Annual Road taxes or any other issues before his/her departure and give a copy to P & I Office.

The Fuel booklet of the vehicle is being returned back to P & I Office before the members departure.
